

1402 5674 Computational Complexity And Black Hole Horizons

1402 5674 Computational Complexity And Black Hole Horizons *FREE* 1402 5674 computational complexity and black hole horizons Computational Complexity and Black Hole Horizons arXiv Computational complexity is essential to understanding the properties of black hole horizons The problem of Alice creating a rewall behind the horizon of Bob's black hole is a problem of computational complexity In general we nd that while creating rewalls is possible it is extremely di cult and probably impossible for 1402 5674 Computational Complexity and Black Hole Horizons Abstract Computational complexity is essential to understanding the properties of black hole horizons The problem of Alice creating a firewall behind the horizon of Bob s black hole is a problem of computational complexity In general we find that while creating firewalls is possible it is extremely difficult and probably impossible for black holes that form in sudden collapse and then Addendum to computational complexity and black hole In this addendum to arXiv 1402 5674 two points are discussed In the first additional evidence is provided for a dual connection between the geometric length of an Einstein?Rosen bridge and the computational complexity of the quantum state of the dual CFT s Computational Complexity and Black Hole Horizons The problem of Alice creating a firewall behind the horizon of Bob s black hole is a problem of computational complexity In general we find that while creating firewalls is possible it is extremely difficult and probably impossible for black holes that form in sudden collapse and then evaporate Addendum to computational complexity and black hole Addendum to computational complexity and black hole horizons Leonard Susskind HTML view Download PDF for offline viewing Logged in as READCUBE USER Log out of ReadCube Abstract In this addendum to arXiv 1402 5674 two points are discussed In the first additional evidence is provided for a dual connection between the geometric Computational Complexity and Black Hole Horizons CORE The problem of Alice creating a firewall behind the horizon of Bob s black hole is a problem of computational complexity In general we find that while creating firewalls is possible it is extremely difficult and probably impossible for black holes that form in sudden collapse and then evaporate Addendum to Computational Complexity and Black Hole Addendum to Computational Complexity and Black Hole Horizons By Leonard Susskind Get PDF 222 KB Abstract In this addendum to arXiv 1402 5674 two points are discussed In the first additional evidence is provided for a dual connection between the geometric length of an Einstein Rosen bridge and the computational complexity of the quantum Addendum to Computational Complexity and Black Hole Horizons Abstract In this addendum to arXiv 1402 5674 two points are discussed In the first additional evidence is provided for a dual connection between the geometric length of an Einstein Rosen bridge and the computational complexity of the quantum state of the dual CFT s Computational Complexity and Black Hole Horizons HEP Computational complexity is essential to understanding the properties of black hole horizons The problem of Alice creating a firewall behind the horizon of Bob s black hole is a problem of computational complexity In general we find that while creating firewalls is possible it is extremely difficult and probably impossible for black holes that form in sudden collapse and then evaporate Computational Complexity and Black Hole Horizons INSPIRE HEP Computational complexity is essential to understanding the properties of black hole horizons The problem of Alice creating a firewall behind the horizon of

1402 5674 computational complexity and black hole horizons

Bob's black hole is a problem of computational complexity. In general, we find that while creating firewalls is possible, it is extremely difficult and probably impossible for black holes that form in sudden collapse and then evaporate.
