AXIS Camera Companion  
AXIS Camera Companion Internet access  
AXIS Camera Companion 2.0 introduces a new way to access sites and cameras remotely. When installing AXIS Camera Companion on a PC with internet connection you will be asked to login with your MyAxis account. This is the same account as you would use when you login to download product firmware or software updates.  
Overview Axis Communications  
AXIS Companion is a future proof solution that scales seamlessly up to 16 cameras per location. It offers tight integration with all products in the AXIS Companion Line at the same time as it offers the full flexibility of Axis' complete product portfolio.  
AXIS Camera Companion Vision Systems  
AXIS Camera Companion is the market's easiest video surveillance solution for small systems from 1 to 16 cameras – perfect for retail offices and hotels. With AXIS Camera Companion all video is recorded on SD cards in the cameras and no DVR or server is necessary – making each camera a smart independent video recording device.  
AXIS Camera Companion User Manual

AXIS Camera Companion User Manual Page 13  
Original Video Size  
Video can be shown in original size or be stretched to fit the size of the Selected Camera area B. To switch between the two options right click in the Selected Camera area B and select or clear Original Video Size.  
AXIS CAMERA STATION USER MANUAL Pdf Download  
Network Configuration  
Network Configuration To access AXIS Camera Station from the Internet and get live images from the cameras you must open a set of IP addresses and port numbers in your Firewall configuration. Basically there must be a port open for each camera and one port for AXIS Camera Station.  
Axis cameras setup and Troubleshooting  
A Configure the IP addresses of the IP Cameras  
1 Install and run the Axis Camera Manager that comes with the camera CD  
2 Add the devices and click next  
3 Click Finish  
4 From here you may now navigate to the camera directly by clicking on the IP address hyperlink  
5
