**Cad For Fashion Design And Merchandising Studio**

Computer-aided design (CAD) is the use of computers (or workstations) to aid in the creation, modification, analysis, or optimization of a design. CAD software is used to increase the productivity of the designer, improve the quality of design, improve communications through documentation, and to create a database for manufacturing. CAD output is often in the form of electronic files for print. Computer-aided design Wikipedia.

Fashion design is the art of applying design aesthetics and natural beauty to clothing and its accessories. It is influenced by cultural and social attitudes and has varied over time and place. Fashion designers work in a number of ways in designing clothing and accessories such as bracelets and necklaces. MA Fashion Design Masters Winchester School of Art. Introducing your course.
