

Cell

Cell *FREE* cell INTRODUCTION TO THE CELL BiologyMad Cells are the basic units of structure and function in an organism c Cells come only from the replication of existing cells CELL DIVERSITY Not all cells are alike Even cells within the same organism show enormous diversity in size shape and internal organization Cell Biology nicholls edu • Cells are the fundamental unit of life nothing less than a cell is alive • All organisms are constructed of and by cells • All cells arise from preexisting cells Cells contain the information necessary for their own reproduction No new cells are originating spontaneously on earth today • Cells are the functional units of life The cell is the lowest level of structure capable of The cell is the lowest level of structure capable of performing all the activities of life The first cells were observed and named by Robert Hooke in 1665 from slice of cork 2 The Cell Thoery Proposed by Matthais Schleiden and Theodor Schwann in 1839 All living things are made up of cells CELL – STRUCTURE AND FUNCTION cell is the structural and functional unit of life and cells arise from pre existing cells The cells vary considerably in shape and size Fig 4 1 Nerve cells of animals have long extensions They can be several feet in length Muscle cells are elongated in shape Egg of the ostrich is the largest cell 75 mm Some plant cells have thick walls CELL CULTURE BASICS Vanderbilt University Cell Culture Cell culture is one of the major tools used in cellular and molecular biology providing excellent model systems for studying the normal physiology and biochemistry of cells e g metabolic studies aging the effects of drugs and toxic compounds on the cells and mutagenesis and carcinogenesis Cell fpdf org Cell Cell float w float h string txt mixed border int In string align boolean fill mixed link Description Prints a cell rectangular area with optional borders background color and character string The upper left corner of the cell corresponds to the current position The text can be aligned or centered
