Grand strategy Wikipedia Grand strategy or high strategy comprises the purposeful employment of all instruments of power available to a security community. Issues of grand strategy typically include the choice of primary versus secondary theaters in war distribution of resources among the various services the general types of armaments manufacturing to favor and which international alliances best suit national goals. Foreign market entry modes Wikipedia Foreign market entry modes or participation strategies differ in the degree of risk they present the control and commitment of resources they require and the return on investment they promise. There are two major types of market entry modes: equity and non-equity modes. The non-equity modes category includes export and contractual agreements. The equity modes category includes joint management.
