The alliterative expression nature and nurture in English has been in use since at least the Elizabethan period and goes back to medieval French. The combination of the two concepts as complementary is ancient Greek ??? Nature Nurture in Psychology Simply Psychology Nature is what we think of as pre wiring and is influenced by genetic inheritance and other biological factors. Nurture is generally taken as the influence of external factors after conception e.g. the product of exposure life experiences and learning on an individual. Nature versus nurture Simple English Wikipedia the free. The nature versus nurture debate is about the causes of differences between people. Like all living things, people have inherited innate qualities. There are also events or experiences which happen during life. Nature describes the effect of a person's genes whereas nurture describes whatever happens during life. In the language of population genetics, the heritability of a feature is Human nature. Wikipedia Human nature is a bundle of characteristics including ways of thinking, feeling, and acting which humans are said to have naturally. The term is often regarded as capturing what it is to be human or the essence of humanity. The term is controversial because it is disputed whether or not such an essence exists. Genetic determinism rides again. nature com Blueprint How DNA Makes Us Who We Are Robert Plomin Allen Lane 2018 It's never a good time for another bout of genetic determinism but it's hard to imagine a worse one than this. The new genetics of intelligence Nature Reviews Genetics: Recent genome wide association studies have catapulted the search for genes underlying human intelligence into a new era. Genome wide polygenic scores promise to transform research on individual...
