

Observations On Induced Breeding Of Snakehead Murrel

Observations On Induced Breeding Of Snakehead Murrel *FREE* *observations on induced breeding of snakehead murrel* OBSERVATIONS ON INDUCED BREEDING OF SNAKEHEAD MURREL An experiment was conducted on the induced breeding of the snakehead Murrel *Channa striatus* Bloch 1793 during April to June 2000 in a minipond at the backyard of Vice Chancellor's house and at the hatchery of Zoological Garden University of Dhaka Bangladesh The breeding was performed with the treatment of pituitary gland PG hormone Breeding Behavior and Parental Care of the Induced Bred The induced bred fishes were immediately released into the breeding tanks injection until spawning Observations were conducted after one week period allowing the fish to adapt to the observers presence Results and Discussion Male approaches a female assuming a side by side position and starts to quiver ABSTRACT ksu.edu.sa Induced breeding snakehead murrel *Channa striatus* haniffacare@gmail.com ABSTRACT Induced breeding of the striped snakehead Murrel *Channa striatus* Bloch 1793 was attempted during October to December 2009 North east monsoon The breeding attempt was made using natural hormone Human Chorionic Induced ovulation and spawning of a striped snakehead Published on Jul 20 2014 Induced breeding of the striped snakehead Murrel *Channa striatus* Bloch 1793 was attempted during October to December 2009 North east monsoon The breeding attempt was made using natural hormone Human Chorionic Gonadotropin HCG PDF Observation of hapa breeding technique of striped Observation of hapa breeding technique of striped snakehead *Channa striatus* Bloch 1793 under captive conditions Article PDF Available in Fisheries Science 45 413-417 · October 2016 with Development of Captive Breeding Seed Production and the breeding and feeding of early larval stages of snakeheads 15 They had also conducted an experiment to breed *C. striatus* in a controlled laboratory conditions The brood stocks of snakehead were injected with ovaprim hormone with a dosage of 0.5 ml/kg body weight and spawning occurred Final Report on portal.gov.bd The main reasons are the destruction of their breeding grounds catching of young juveniles and the outbreaks of ulcerative syndrome disease use of agro chemicals and pesticides In Bangladesh the snakehead murrel is of economic importance as food fish in freshwater capture fisheries and has great potential for aquaculture ISSN 2347-5129 Observation of hapa breeding technique of Observation of hapa breeding technique of striped snakehead *Channa striatus* Bloch 1793 under captive conditions Nirmal Chandra Roy Sajib Kumar Chowdhury and Subrata Kumar Das Abstract Hapa breeding of *Channa striatus* was investigated to address the low cost seed production technique Breeding and Culture of Snakehead Fish Snakehead fish thus have a huge market potential in Malaysia A group of researchers have developed a technology for the breeding and seed production of this economically important native snakehead fish The induced breeding techniques have been evaluated and standardized and can thus be easily adopted by any aquaculture entrepreneur in Malaysia Genetic structure of the snakehead murrel *Channa striata* Genetic structure of the snakehead murrel *Channa striata* *channidae* based on the cytochrome c oxidase subunit I gene Influence of historical and geomorphological factors Rahman MM Observations on induced breeding of snakehead murrel *Channa striatus* Bloch 1793 Int J Sustain Crop Prod
