**A History of Preaching** 1572 excerpt from a history of preaching from the apostolic fathers to the great reformers a d 70 1572 the remarkable lack of treatises on the history of preaching especially in english early impressed me and aroused a desire to do something however little towards supplying the need the difficulty of the task and the pressure of other and heavy burdens have occasioned many misgivings and delays and there have been of necessity changes of plan in the execution of the work as now planned the present volume is the first of three proposed books it deals with the history up to and including the reformation the next will treat of modern european preaching and the last will present a history of preaching in the united states some material is in hand for these later works and should this one be fort unate enough to find a public and should life and leisure be granted me i hope in time to produce them for the completion of the present volume opportunity was kindly afforded by the trustees of the seminary in granting me leave of absence for some months to visit europe while abroad from june 1902 to january 1903 i had time not only to write up much material already gathered but to visit some of the places made famous in the history of the pulpit and to read somewhat in a number of the great libraries including those at berlin about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at [forgottenbooks.com](#) this book is a reproduction of an important historical work

[Lectures on the History of Preaching](#) 1893

preaching is dramatic through it we hear the voice of the living god as he speaks to us both through the reading and the preaching of the word of god but where do the hearers of sermons fit into the drama this book suggests ways in which the drama metaphor may help to address age old questions about the centrality of the gospel and the place of the hearer in preaching as god in christ is the central character in the biblical drama of redemption he also calls hearers to understand their role in creatively yet faithfully living according to the biblical script thus no sermon is complete until god s redemptive work is powerfully proclaimed and his people are instructed in how they too are participating in the missio dei in this work hebrews 11 is employed as a means of showing how god not only reveals his redemptive work to his people but also through them as postmodernism sets the stage of contemporary preaching the drama of preaching interacts with some of the particular challenges preachers face in engaging postmodern listeners that they might not only be hearers but doers of the preached word

**Lectures on the History of Preaching** 1888 excerpt from lectures on the history of preaching the author of these lectures stood in the very front rank of the preachers both of his country and his age his first volume of sermons republished on this side of the atlantic under the title of the day dawn and the rain and originally issued in edinburgh in 1869 as sermons by rev john ker is now in its thirteenth edition in great britain and has attracted the attention and called forth the commendation of

the best critics the discourses which it contains are characterized by originality of thought simplicity of style and a certain quiet power that carries conviction without any straining after effect his lines of method are all natural without being obvious and his movement along these is always singularly easy and delightful the same qualities distinguish his second volume which though published after his death in 1886 is a worthy companion of the first and has already taken its place among the homiletic models of our times for many years before his death a nervous break down in health incapacitated him for regular pulpit work about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at [forgottenbooks.com](#) this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
